Current Arrangement

Summary

- In **Fall 2021**, the targeted default mode of delivery for classes will be **in-person on campus.**
- All members of the University should therefore **plan to be in Hong Kong** well in time for the **Fall term**, as far as possible.
- Some courses/sections would be offered in **mixed-mode**, **blended**, or **real-time online mode.** This will be decided on pedagogical grounds, with inputs from instructors and Department/Division Heads, following the relevant approval process.
- After the add-drop period, if a class has **any student(s) who cannot be physically present** in Hong Kong, that class will be held in **mixed-mode** or **mixed-mode lite**.
- In order to return to the ideals of our community and resume normal teaching and learning and other campus activities this **Fall,** we encourage **all students**, faculty, staff, and contractors working on campus to get **vaccinated** by the Fall Term. If anyone cannot be vaccinated for medical reasons, regular COVID-19 testing with results submitted to the University for confirmation will be required.
